Committee Meeting
Minutes
May 24, 2010

The members of the Board of Education met as a committee of the whole on Monday, May 24, 2010 at 6:30 p.m. at the Don Stroh Administration Center, 5606 South 147th Street. The 2010-2011 budget was reviewed.

Present: Mike Pate, Dave Anderson, Brad Burwell, Mike Kennedy, Linda Poole, and Julie Kannas

Also in attendance were Ken Fossen, Keith Lutz, and other administrators.

Dave Anderson called the meeting to order.

Public Comments: A Millard resident reported that he would be available on technical issues in regards to any discussions on global warming.

The Program Budget Teams are responsible for developing four required budgets. In developing budgets for the FYE 11 fiscal year, it is assumed that costs associated with salaries and benefits will increase by 4.8% and that the costs associated with all other items will increase by 2.8%. The increases are incorporated into the Continuation budget, which are calculations presented as a point of reference to be considered when preparing the required budget levels.

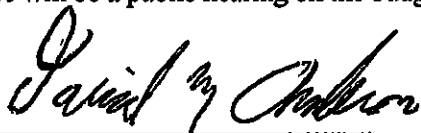

The District Budget Teams have the responsibility of reviewing all of the budgets submitted by the Program Budget Teams and establish priorities among the budgets submitted. In establishing the order of priority for the various budgets submitted by the Program Budgeting Teams, the District Budget Team will engage in a "Q-Sort" process. This process will be led by a facilitator assigned by the Superintendent. When the District Budget Team establishes the budget priorities, these priorities, along with the projected FYE11 revenues available to fund these priorities, will be submitted to the Superintendent for consideration.

The Superintendent has the responsibility for reviewing the recommended budget priorities submitted to him by the District Budgeting Team, he then considers additional factors, such as political issues, which may impact budget decision-making, and then develops a budget to recommend to the Board of Education.

Ken Fossen went through each program category with the program chair to get feedback from board members.

Board members discussed the pros and cons of a future bond issue, and raising the tax levy during this volatile time. A survey of the community could answer some of the questions about the volatility. There are many unknowns associated with the budget decisions, such as what the legislature will do, and what the state of the State will be in the next few years.

There will be a public hearing on the budget during the summer.

PROGRAM BUDGETING PROCESS**

I. INTRODUCTION

A. TRADITIONAL BUDGETING PROCESS

Prior to the budget for the 1999-2000 school year, the District used a traditional budgeting process which utilized allocation formulas for distributing funds among the various budget areas. In general terms, the allocation formulas increased the previous year's budget allocations to compensate for salary increases, inflation, and student growth.

Under the traditional budgeting process, there was limited priority setting among the various District programs.¹ The budget allocation formulas tended to ensure that the programs that were provided during the preceding year became the "default priorities" for funding for the next year. Thus, adding new programs was difficult and abandonment of existing programs was virtually non-existent.

B. PROGRAM BUDGETING PROCESS

During FYE00, the District moved away from the traditional budgeting process and implemented a new *program budgeting process*. This process provided a mechanism for establishing and funding the highest priorities for the District.

It is the intent of the District to improve upon its program budgeting process each year. Gradually, the budgeting process will be refined and improved by, among other things, incorporating performance measurements to assist with decision-making. This will transition the District into performance-based program budgeting (PB²). With the PB² process, budget decision-making will focus attention on those programs and services that have had a consistent track record of assisting the district in meeting its mission and goals.

II. PROGRAM BUDGETING PROCESS

A. PROGRAM AREAS

For FYE11, the budget is divided into multiple program areas. A chairperson is assigned to each of the areas. Below is a listing of the budget areas for FYE11 and the chairperson assigned to each area.

¹ In this document, the term "program" is intended to include both programs and services unless the context indicates otherwise.

<u>Program Area</u>	<u>Chairperson</u>
1. Elementary School Programs	Carol Newton
2. Middle School Programs	Nancy Johnston
3. High School Programs	Nancy Johnston
4. Governance	Keith Lutz
5. Educational Services	Mark Feldhausen
6. Curriculum Adoption	Mark Feldhausen
7. Business Services	Chris Hughes
8. Contractual Business Services	Chris Hughes
9. Technology	Vicki Hoskovec
10. Special Education	Charlene Snyder
11. Operations & Maintenance	Bob Snowden
12. Special Building Projects	Ken Fossen
13. Transportation	Kim Carlson
14. Security	Kraig Lofquist
15. Employee Contracted Obligations	Chad Meisgeier

17. ARRA	Ken Fossen
18. Contingency	Ken Fossen
19. Strategic Plan	Angelo Passarelli
20. Utilities	Ken Fossen

B. PROGRAM BUDGET TEAM (PBT)

Each program area will have a budget team. The composition of the Program Budget Team will vary from area to area; however, the intent is to bring broad-based input into the development of the budget for that particular area. See Appendix A for a list of the individuals assigned to each Program Budget Team.

The Program Budget Teams will be responsible for developing four *required* budget levels. The four required budgets will be as follows:

- 101.0% of the Previous Year's Budget**
- 102.0% of the Previous Year's Budget**
- 103.0% of the Previous Year's Budget**
- 104.0% of the Previous Year's Budget**

In addition to the *required* budgets, each PBT may (and is encouraged to) submit two *optional* budget levels. These optional budgets will likely be increased budgets, however, they could be reduction budgets if the PBT so chose.

In developing budgets for the FYE11 fiscal year, it is assumed that costs associated with salaries and benefits will increase by 4.8% and that the costs associated with all other items will increase by 2.8%. The increases are incorporated into the "Continuation Budget" calculations contained in Appendix "B" attached. The Continuation Budget calculations are presented as a point of reference to be considered when preparing the required budget levels noted above.

The responsibility for facilitating and leading the PBT in its development of the multi-level budgets will rest with the chairperson of the team.

C. PEER REVIEW COMMITTEE (PRC)

The Peer Review Committee (PRC) will be composed of the chairpersons of each of the program areas. The PRC will have the responsibility of reviewing the budget drafts being developed by the various PBTs and ensuring: (1) that the PBT completed forms are thorough, yet clear and concise, (2) that all PBTs are using the same format and style, (3) that each PBT is aware of the potential impact other PBT budget proposals may have on theirs², (4) that the rationale supporting PBT are sound and defensible, and, (5) that any unanticipated procedural issues arising in the PBT phase are addressed and resolved.

In reviewing the PBT multi-level budget drafts, the PRC should raise issues that the members believe might surface during subsequent phases of the budgeting process (i.e., at the DBT, superintendent, and board levels) so that these issues might be addressed before the budgets are completed. The final decision with regard to the contents of the multi-level budgets will rest with the respective PBTs.

D. DISTRICT BUDGET TEAM (DBT)

The District Budget Team will have the responsibility of reviewing all of the budgets submitted by the Program Budget Teams and establishing priorities among the budgets submitted.

In establishing the order of priority for the various budgets submitted by the PBTs, the District Budget Team will engage in a "Q-Sort" process. This process will be led by a facilitator assigned by the Superintendent.

Once the DBT has established the budget priorities, these priorities (along with the projected FYE11 revenues available to fund these priorities) will be submitted to the Superintendent for his consideration.

E. SUPERINTENDENT

The Superintendent will have the responsibility: (1) for reviewing the recommended budget priorities submitted to him by the District Budgeting Team, (2) for considering additional factors (e.g., political issues) which may impact budget decision-making, and, (3) for developing a recommended budget for submission to the Board of Education.

F. BOARD OF EDUCATION

The Board of Education, as the elected representatives of everyone in the community, will have the responsibility: (1) for reviewing the recommended budget presented by the Superintendent, (2) for considering additional factors (e.g., political issues) which may impact budget decision-making, and, (3) for following the necessary legal process required for the adoption (or amendment and then adoption) of the budget for the ensuing fiscal year.

G. BUDGET DEVELOPMENT TIMELINE

The timeline for the development of the FYE11 budget is attached as Exhibit H.

² For example, if the PBT for Elementary Programs was considering the addition of foreign language classes at the elementary level, this could create an impact on the classes being taught at the middle school and high school levels.

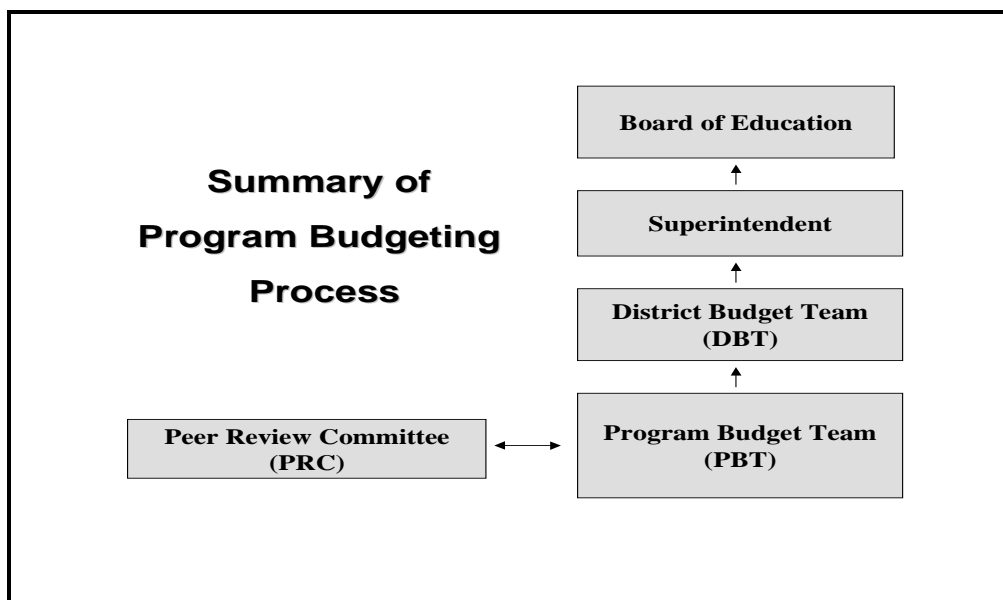

Figure 1

III. INSTRUCTIONS FOR BUDGET PREPARATION

A. INSTRUCTIONS FOR PROGRAM BUDGET TEAMS

1. Multi-Level Budgets

For the FYE11 budget, each Program Budget Team (PBT) will be required to complete four budgets. Additionally, each PBT may submit two additional “optional” budgets. The *required* budgets will be as follows:

- 101.0% of the Previous Year’s Budget
- 102.0% of the Previous Year’s Budget
- 103.0% of the Previous Year’s Budget
- 104.0% of the Previous Year’s Budget

The optional budgets may be either increased budgets, reduced budgets, or one of each and may be for any percentage level.³

Appendix B provides the current (FYE10) year’s budget for each program area. These budgets contain both personnel (i.e., salary and benefits) and non-personnel expenses.

In preparing the multi-level budgets for FYE11, it should be assumed that there will be a 4.8% increase in salaries and benefits and a 2.8% increase in non-personnel items. These increases have been included in the calculations contained in Appendix B.

³ For example, a PBT could submit a proposed budget of 124.4%. This optional budget would, along with the required budgets, be considered by the District Budget Team (DBT) in its priority setting Q-Sort process. It needs to be kept in mind that the funding of a large increase in one area will necessitate a smaller increase (or reduction) in another area.

As in past years, the dollar amount budgeted for building allocations will not increase or decrease when the official student enrollments are known in September (i.e., the last Friday). When the official student enrollments are known, the business office will again calculate the building allocations using the formula in Appendix E (or the new formula if such is proposed and adopted during the budgeting process). If insufficient funds are budgeted in the program budgeting process to fully fund the formula (using the official September student enrollment), the final building allocations will be prorated accordingly (e.g., if there is only 95% of the money needed to fund the formula, each building will receive 95% of the amount generated for it by the formula; or, on the other hand, if there is 105% of the money needed to fund the formula, each building will get 105% of the amount generated for it by the formula).

In developing its multi-level budgets, the PBT may propose reductions of personnel in order to increase the amount of funds available for non-personnel expenses (and *vice versa*).

Determining the precise cost for adding or reducing FTEs is a difficult task for a number of reasons which will not be elaborated on herein. It is, however, possible to use some general guidelines to provide reasonable estimates for budget development purposes.

For budgeting purposes during FYE11, the following dollar values (which include both salaries and benefits) are to be attached to each 1.0 FTE for the appropriate category of employee⁴.

1.	Teacher	\$ 63,905
2.	Counselor	\$ 74,249
3.	Custodian/Grounds	\$ 52,422
4.	Maintenance (skilled)	\$ 74,624
5.	Secretary (10-month)	\$ 35,256
6.	Secretary (12-month)	\$ 50,707
7.	Para (8 hours/day)	\$ 27,207

The above amounts should be used whenever the PBT is increasing or decreasing the number of FTE positions in its program area for the coming year.

The categories above will cover most situations, but not all. For reductions or additions of personnel who do not fall within any of the general categories above, contact Chad Meisgeier (715-8251) in the HR Office for the dollar amount to be used.

2. **PBT Program Budget Forms**

Three forms will affect the Program Budget Teams (PBTs). The first is the Program Description Form in Appendix C. The purpose of this form is to provide a brief description of what programs (and/or services) are provided by the respective areas of the budget. This form may be of some assistance to the members of the Program Budget Teams; however, it will be of greater importance to the members of the District Budget Team who will be reviewing multiple budgets from all of the program areas.

The Program Description Form should be limited to one page. To accomplish this, it is suggested that "bullets" be used to reduce the verbiage in the description and to make it as concise as possible. A simple format (i.e., portrait layout with Times Roman 10 font) was used for the form so that it would be easy to recreate in any word processing program.⁵

⁴ These estimates of salaries and benefits are based upon the "new hires" from the previous year. The estimates include the 4.8% increase in salaries and benefits projected for the ensuing year.

The second form which will affect the PBT is the Budget Level Summary form in Appendix D. This form will need to be completed at least four times – one for each required budget level (i.e., 101.0%, 102.0%, 103.0%, and 104.0%). An additional form will need to be completed for each optional budget level the PBT wishes to submit. Again, this form may be recreated on a word processing document (omitting footnotes) so long as the same format (i.e., portrait layout with Times Roman 10 font) is used and the same information is included. The Budget Level Summary form for each of the budget levels will be reviewed by the District Budget Team, so, the material submitted should be as clear and concise as possible.

The third form for the PBT will be the PBT Executive Summary form in Appendix G. This form, which is to be completed by the chairperson of the team, provides a summary of the multiple level budgets. Although all three PBT forms above will be made available to the District Budgeting Team prior to its meeting (i.e., the “Q-sort” meeting), the PBT Executive Summary will likely serve as the focus of the presentations at that meeting.

The program areas related to elementary school, middle school, and high school programs interact extensively with both the business office and the human resources office. Therefore, Jim Sutfin (Human Resources) and Chris Hughes (Business Office) need to be consulted before each PBT develops its final budgets.

3. Input From Others

In the development of the program budgets, it is important that the budget stakeholders have the opportunity to be involved. It is also important to get all of the budget issues “on the table” early in the process.

In order to get everything “on the table” early in the process, each administrator is asked to communicate, in writing, his/her requests to the appropriate chairperson of the program area involved. If the administrator is not certain of which program area is involved, he/she may submit his/her request to Ken Fossen (who will see to it that the request gets to the appropriate chairperson). If the administrator is a member of the PBT for the area involved, he/she is not required to (but is encouraged to) submit his/her request in writing to the chairperson so that the request is given consideration and does not “fall through the cracks.”

All requests should contain: (a) a thorough, yet concise description of the request, (b) a brief rationale supporting the request, and (c) a cost estimate for the request. See Appendix F for a form that may be used to submit budget requests. The form is not required. The administrator, if he/she should so choose, may send the request via e-mail to the appropriate chairperson. If the form is not used, it should be kept in mind that the chairperson still needs to know the three pieces of information noted above (i.e., description, rationale, and cost).

Building administrators should have communication channels established within their buildings and communities. Through these channels (both formal and informal), requests may be made which need consideration in the budgeting process. Since the employees and community members may not be familiar with the communication channels in the budgeting process, the requests should be communicated by the building principal (or other administrator) to the appropriate program area chairperson.

The budget requests need to reflect only those items that would be different from what was done during the previous year. For example, there is no need to request a science teacher to replace one

⁵ Please use the same format used in the form, but feel free to eliminate footnotes. The consistency will be appreciated by the DBT members who will be reviewing the forms from all of the PBTs.

who is retiring because the *position* was there in the previous year. [Note: If there is any doubt about whether or not to submit a request, submit it.]

All requests are to be submitted to the appropriate chairperson on or before March 5, 2010.

B. INSTRUCTIONS FOR DISTRICT BUDGET TEAM

The purpose of the District Budget Team is: (a) to review all of the multi-level budgets submitted by the Program Budget Teams and (b) to prioritize them using a Q-Sort process. Once the budgets have been prioritized, the financial resources available for FYE11 will be overlaid onto the prioritized list to create a prioritized budget for FYE11. This prioritized budget will be submitted to the Superintendent for review and consideration. The Superintendent has the responsibility of submitting a recommended budget to the Board of Education.

Although the members of the DBT will need to devote a substantial amount of time and energy to their task, the only product the DBT will need to create is a prioritized list of the multi-level budgets submitted by the PBTs. At its discretion, the DBT may attach to its list any thoughts, comments, or suggestions which the members believe would be beneficial to the Superintendent and/or Board in their deliberations.

IV. FREQUENTLY ASKED QUESTIONS (FAQs)

A. QUESTIONS RELATED TO BUDGET PROCESS

Q: What happens if the members of the Program Budget Team (PBT) cannot reach a consensus on the provisions of the multi-level budgets?

The ideal result is to have the members of the PBT reach consensus on the provisions of the multi-level budgets. The ideal, however, may not occur in all cases. In the event the PBT members cannot reach consensus, it will be the responsibility of the chairperson to draft the multi-level budgets. In drafting his/her multi-level budgets, the chairperson should take into consideration the comments and concerns expressed by the team members. He/she may even take a vote to see how many team members support each proposal, but the vote will not be binding on the chairperson. The final decision, in the absence of consensus of the PBT member, will rest with the PBT chairperson.

B. QUESTIONS RELATED TO BUDGET ITEMS

Q: Who needs to budget for losses due to vandalism or theft not covered by insurance?

The amount of loss which is not covered by insurance will be divided between the building and central office. The first line of defense against loss due to vandalism and theft is at the building level. If central office paid all of the costs, then there would be no incentive for the buildings to attempt to prevent the loss. On the other hand, central office should also be active in preventing or mitigating loss related to vandalism and theft. Therefore, any uninsured loss due to major vandalism or theft will be shared equally between central office and the building involved, so both entities should budget accordingly.

Q: Who needs to budget for the replacement of marching band uniforms?

In order to replace marching band uniforms every 12-14 years, there will need to be a reserve established in the amount of at least \$10,000-20,000 per high school per year (assuming there are 120-240 members in the band). The latest band uniform purchases were: (1) North High in 2005, (2) West High in 2007, and (3) South High in 2010.

Q: Who needs to budget for expenses related to roofs and parking lots?

The Maintenance and Operations program area needs to budget for routine maintenance expenses related to roofs and parking lots. However, roofs and parking lots eventually need more than maintenance work – they need resurfacing or replacement. These major capital expenditures need to be budgeted in the building fund (if a levy is available for such). In the alternative, an amount could be budgeted in the general fund and transferred to the depreciation fund until needed.

In any event, all requests (both for repair and capital expenditures) need to be directed to the Maintenance and Operations program area. Only the *maintenance* requests will need to be addressed within the confines of the general fund budget for the ensuing year. *Capital expenditure* requests need to be submitted to the District's General Manager for Support Services (Ed Rockwell) who will place the request on a special projects list. This list is frequently reviewed and prioritized by a committee. Whether or not the capital requests will be funded depends on the funds available in the special building fund.

Q: Who is responsible for budgeting for moving portable classrooms and for equipping spaces (e.g., an activity room) being converted into classrooms?

All anticipated needs for moving of portable classrooms and for equipping other rooms into classrooms need to be reported to the business office (i.e., Ken Fossen). The expenses for such will be paid for out of the contingency account.

C. MISCELLANEOUS QUESTIONS**Q: Could you explain to me the following terms: (1) Contingency, (2) Cash Reserve, and (3) Cash Balance?**

The "contingency" is the amount of money budgeted for unforeseen expenditures in the coming budget year. For example, in 1997 when problems arose with regard to the quality of the water in the swimming pool at Millard North High School, there were substantial expenses incurred for which there was no budget – except for the contingency.

The "cash reserve" is a budgeted (not an actual) amount. It is the amount of money the District wants to have on hand at the end of the fiscal year in order to meet payroll (and other expenses) when sufficient tax revenues have not yet been received.

The "cash balance" is the actual amount of money the district has on hand at the end of the budget year. The cash balance and the cash reserve are akin to each other. The cash reserve is the *budgeted* amount established at the start of the year. The cash balance is the *actual* amount the district has on hand at the end of the year. In theory, the *budgeted* cash reserve and the *actual* cash balance could come out the same in a given year. This is highly unlikely, however, since it would mean that the district's revenues and expenditures for the entire year would have to be exactly what was budgeted! Generally speaking, the cash balance at the end of the year is greater than the budgeted cash reserve.

This is because the district, by law, cannot spend more than it has budgeted and, additionally, it is conservative when estimating uncertain revenues.

It should be noted that the cash balance at the end of one fiscal year becomes the starting cash balance for the following fiscal year. Thus, if the *actual* cash balance in one year ends up being higher than the *budgeted* cash reserve, the excess will be reflected in the starting cash balance for the following year. This excess would then reduce the amount of tax moneys needed to fund the budget the following year.

Q: I hear about all types of funds (e.g., general fund, depreciation fund, activities fund, etc.). Could you help me understand the differences between them and how they may be used?

Nebraska Administrative Code, Title 92, Chapter 2 (more commonly referred to as “Rule 2”) gives some general guidance on the different funds available to school districts. Some of the relevant information from Rule 2 is included herein below:

003.03 Fund Accounting

A fund is a fiscal and accounting entity, with a self-balancing set of accounts and is completely independent of any other fund. All school district accounting systems shall be organized and operated on a fund basis. The reporting focus of the funds is upon determining financial position rather than net income.

003.03A General Fund

The General Fund may finance all facets of services rendered by the school district, inclusive of operation and maintenance. General Fund revenues are classified according to source while its expenditures are classified according to specific functions. The General Fund shall be maintained by all operating school districts in the State. General Fund expenditures are limited by the Tax Equity and Educational Opportunities Support Act.

003.03B Depreciation Fund

A Depreciation Fund may be established by a school district in order to facilitate the eventual purchase of a costly capital outlay by reserving such monies from the General Fund. To allocate monies from the General Fund, a school district will show the movement of monies as an expense from the General Fund and the Depreciation Fund will show the revenue as a transfer from the General Fund. The school district may divide this fund into more than one account to allocate a portion of this fund for different valid purposes. The purpose of a Depreciation Fund is to spread replacement costs of capital outlays over a period of years in order to avoid a disproportionate tax effort in a single year to meet such an expense. This fund is restricted as part of the Allowable Reserve by the Tax Equity and Educational Opportunities Support Act. The Depreciation Fund shall be considered only a component of the General Fund.

003.03C Employee Benefit Fund (formerly Unemployment Fund)

An Employee Benefit Fund may be established in order to specifically reserve General Fund money for the benefit of school district employees (unemployment compensation, early retirement, health insurance deductibles, etc.). To allocate monies from the General Fund, a school district will show the movement of monies as an expense from the General Fund, and the Employee Benefit Fund will show the revenue as a transfer from the General Fund. The school district may divide this fund into more than one account to allocate a portion of this fund for different valid purposes. The cash reserve of this fund is restricted as part of the Allowable Reserve by the Tax Equity and Educational Opportunities Support Act. The Employee Benefits Fund shall be considered only a component of the General Fund.

003.03D Contingency Fund

A Contingency Fund is authorized by Section 79-546.01, R.R.S. and may be established by Class II, III, IV, V and VI school districts to fund uninsured losses and legal fees incurred by the school

district for defense against possible losses. Expenditures from this fund shall not exceed five percent of the total budgeted General Fund expenditures of the school district. To allocate monies from the General Fund, a school district shall show the movement of monies as an expense from the General Fund, and the Contingency Fund shall show the revenue as a transfer from the General Fund. This fund is restricted as part of the Allowable Reserve by the Tax Equity and Educational Opportunities Support Act.

003.03E Activities Fund

The Activities Fund is required to account for the financial operations of quasi-independent student organizations, interschool athletics, and other self-supporting or partially self-supporting school activities, not part of another fund. The inclusion of such accounts in the General Fund (see 003.03A) would distort the financial position of the basic school operation and would complicate the computation of the net expense incurred in conducting school services. The Activity Fund shall not be used to record general operation revenues or expenditures, nor shall the activity fund be used as a clearing account for the General Fund. The school district may divide this fund into more than one account to allocate a portion of this fund for different purposes.

The financial operations of all school-connected activities are a legal responsibility of the school district board of education. If deficits in such activities are incurred, they shall be paid from the General Fund (see 003.03A). Such revenue shall finance only those projects which qualify for approval under policies established by the school district board of education for such activities.

003.03F School Lunch Fund

The School Lunch Fund is required to accommodate the financial activities of all Child Nutrition Programs. These include the School Lunch, School Breakfast, Special Milk, Child and Adult Care Food, and the Summer Food Service Programs. The School Lunch Fund shall reflect a record of all revenues and expenditures incident to the operation of all Child Nutrition Programs. If a deficit is incurred in the operation, the deficiency shall be covered by funds transferred from the General Fund.

003.03G Bond Fund

The Bond Fund shall be used to record tax receipts and the payment of bond principal and interest. If the fund balance is not sufficient to meet interest or bond retirement payments from the Bond Fund, the General Fund shall be used for these payments. Revenue from a levy to retire bonds in any school district is retained in a separate fund by the county treasurer, the financial institution serving as a fiscal agent or the school district. Funds shall be disbursed upon appropriate demand. All records of the transactions in this area shall be maintained in this fund. Proceeds from a bond issue shall be deposited into the Special Building Fund (see 003.03H) to be expended on the actual building project.

003.03H Special Building Fund

A Special Building Fund shall be established when a school district decides to acquire or improve sites and/or to erect, alter, or improve buildings. The sale of bonds, the sale of property, or tax receipts will be the primary sources of revenue for the Special Building Fund. Regardless of the source of money to be used for building construction and related costs, all income for this purpose shall be accountable through this fund. General Fund expenditures for the purpose of this fund are not allowable. Special Building Fund accounting provides a more effective means of identifying those expenditures associated with construction activities and provides a complete and consolidated record of all costs of the building program at the conclusion of a project(s). If more than one Special Building Fund activity is active at the same time, separate accounts for each project may be established within the single Special Building Fund. The tax levy for this fund is restricted. The Board of Education of Class II, III, IV, V, and VI school districts may approve a budget with a levy limitation of \$0.14 per one hundred dollars of valuation (Section 79-547.04 R.R.S.); or a tax levy not to exceed \$0.175 per one hundred dollars of valuation may be established for this fund in any class of school district by a vote of the people (Section 79-422 R.R.S.).

003.03I Hazardous Material Abatement/Handicapped Accessibility Fund

A Hazardous Material Abatement/Handicapped Accessibility Fund may be established for the removal of environmental hazards and the reduction or elimination of accessibility barriers in school district buildings. General Fund expenditures for the purpose of this fund are not allowable. The tax levy for this fund is limited to \$0.052 per hundred dollars of valuation and shall not exceed

ten years for each project according to Section 79-4,207, R.R.S. 003.03J Property Tax Reimbursement Fund. The Property Tax Reimbursement Fund shall be established if a school district is required to repay property taxes, previously received, by order of a Court, the State Board of Equalization, or the Tax Commissioner. This authority applies only to tax reimbursements made through the 1999-2000 fiscal year by Section 13-504(2), R.R.S. 003.03K Cooperative Fund. The Cooperative Fund may be used by the school district acting as the fiscal agent for any cooperative activity between two or more school districts. All school districts, including the school district acting as the fiscal agent, shall show the payment for services to a cooperative in their General Fund (see 003.03A).

With regard to the special building fund, it is interesting to note that the language in Rule 2 is not entirely consistent with the language in the statutes. You will note in Neb. Rev. Stat. §79-10,120 below that the statute does not use the word “improve,” but Rule 2 does. Conversely, the statute uses the terms “equipping and furnishing,” but Rule 2 does not.

79-10,120 Class II, III, IV, V, or VI school district; board of education; special fund for sites and buildings; levy of taxes.

The school board or board of education of a Class II, III, IV, V, or VI school district may establish a special fund for purposes of acquiring sites for school buildings or teacherages, purchasing existing buildings for use as school buildings or teacherages, including the sites upon which such buildings are located, and the erection, alteration, equipping, and furnishing of school buildings or teacherages and additions to school buildings for elementary and high school grades and for no other purpose. Such fund shall be established from the proceeds of an annual levy, to be determined by the board, of not to exceed fourteen cents on each one hundred dollars upon the taxable value of all taxable property in the district which shall be in addition to any other taxes authorized to be levied for school purposes. Such tax shall be levied and collected as are other taxes for school purposes.

If it becomes necessary to resolve inconsistencies between Rule 2 and §79-10,120, it would probably be best to resolve the inconsistencies in favor of §79-10,120. In reading the two inconsistent pieces of “law,” it appears that the intent of Rule 2 is to provide a general narrative description of the special building fund, whereas the intent of §79-10,120 is to provide: (1) authority for the creation of the fund, (2) limits on how the fund may be used, and (3) a source of revenue for the fund.

Program Description Form

PROGRAM DESCRIPTION FORM

Program Area: _____

Briefly¹ describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year:

¹ Please limit the description to one page. The use of "bullets" is encouraged.

Appendix D

Budget Level Summary Form

BUDGET LEVEL SUMMARY FORM

(Specific Budget Level Information¹)

Program Area: _____ Budget Level = _____%

1. What are the additions provided for in this budget when compared to the budget for last year?

Additions	Est. Cost
	\$

2. What are the reductions provided for in this budget when compared to the budget for last year?

Reductions	Est. Cost
	\$

3. Financial Reconciliation:

Continuation Budget: ²	\$
Amount for Above Additions:	\$
Amount for Above Reductions:	\$
Total:	\$

(The "Total" must equal the budget available for this budget level.³)

4. Attach whatever information seems relevant to support the committee's decisions related to this budget level. Include information related to other additions or reductions that were considered by the committee but were not in this budget level. [Note: If some of the supporting documentation relates to more than one of the proposed budget levels, attach the information to the first budget level and simply make reference to it in subsequent budget summaries.]

¹ A separate form needs to be completed for each proposed budget level.

² The dollar amount for the Continuation Budget for each program area can be found in Appendix B in the Program Budgeting Packet.

³ The budget available for each required budget level can be found in Appendix B in the Program Budgeting Packet. For optional budget levels, the amount is equal to last year's budget multiplied by the budget level.

- 2. Estimated Cost of Request:**³
- 3. Rationale Supporting Request:**⁴

¹ Complete a separate form for each request.

² The request may be for a reduction, an addition, or a request to consider a particular issue (e.g., consider the issue of discontinuing partial parent pay transportation for middle school students).

³ The cost should reflect both personnel and non-personnel costs.

⁴ Share the rationale behind the request. Include as much data and other information as possible.

¹ The "Incremental Amount" is the difference between the proposed budget and the preceding proposed budget. In other words, the "Incremental Amount" answers the question, "How much more money would it take to fund this budget over what it took to fund the preceding one?" The incremental amount for the first proposed budget would, of course, be the full amount of the proposal (since there is no preceding budget).

Amount for Above Reductions:	\$ <u>1,807,912.00</u>
Total:	\$ 48,596,404.00

(The “Total” must equal the budget available for this budget level.)

4. Attach whatever information seems relevant to support the committee’s decisions related to this budget level. Include information related to other additions or reductions that were considered by the committee but were not in this budget level. [Note: If some of the supporting documentation relates to more than one of the proposed budget levels, attach the information to the first budget level and simply make reference to it in subsequent budget summaries.]

The intent of the submitted budget is to implement the district curriculum and services that provide students the differentiated learning opportunities to successfully achieve our District Standards and Indicators and meet District and State Assessments, within the parameters of State Statute and Nebraska Department of Education Rules.

- The following requests were submitted to the Elementary Program Budget Team but were not granted at this level
 - i. 1 FTE ELL teacher for growth
 - ii. .25 FTE ELL teacher for students who have waived attending their ELL site
 - iii. 3 FTE teachers for traveling art teachers for grade 5
 - iv. 6 FTE teachers for classroom growth

- The committee reviewed all of the programs included in the Elementary Program Budget to identify possible reductions. The building budgets for staff development, materials, and supplies do not adequately meet the building needs, so this area was not identified for reductions. Other programs such as Counseling, Literacy Intervention, Physical Education, and Vocal Music were discussed, but are critical components to supporting elementary students' academic achievement. Based on these concerns, the committee identified the following reductions to meet this budget level:
 - i. All remaining extra-curricular programs – Student Council, all Club Sponsors
 - ii. Building extra-duty positions – Safety Patrol, PAYBAC Liaison, 5 MIT Consultants/Bldg (retain 1/bldg), Student Information System Trainers, Building Web Page Developer
 - iii. Teaching staff – 11.5 classroom teachers, 4th grade String, 5th grade Strings, and 5th grade Band
 - iv. Development of grade level teacher trainers in the area of literacy
- Budget reductions in past years have eliminated the following programs and supports: Curriculum Task Force Committee (2006-07); 120 extra duty positions for content area initiators (2005-06); 1 FTE in Montessori preschool/kindergarten (2004-05); and extra duty positions for bldg Volunteer Coordinator, Kitchen Helper Coordinator, Spring Festival Music Program, and Montclair Swim Instruction Paraprofessionals (2003-04).

- The addition of 6 FTE for K-5 teachers was requested by Human Resources based on anticipated growth for 2009-10.

The intent of the submitted budget is to implement the district curriculum and services that provide students the differentiated learning opportunities to successfully achieve our District Standards and Indicators and meet District and State Assessments, within the parameters of State Statute and Nebraska Department of Education Rules.

- The following add request was included at this budget level:
 - i. .25 FTE ELL teacher for students who have waived attending their ELL site
 - ii. 1 FTE ELL teacher for growth, as the number of students increases, this provides additional support for those students

- The following requests were submitted to the Elementary Program Budget Team but were not granted at this level
 - i. 3 FTE teachers for traveling art teachers for grade 5
 - ii. 6 FTE teachers for classroom growth
- The committee reviewed all of the programs included in the Elementary Program Budget to identify possible reductions. The building budgets for staff development, materials, and supplies do not adequately meet the building needs, so this area was not identified for reductions. Other programs such as Counseling, Literacy Intervention, Physical Education, and Vocal Music were discussed, but are critical components to supporting elementary students' academic achievement. Based on these concerns, the committee identified the following reductions to meet this budget level:
 - i. All remaining extra-curricular programs for reduction – Student Council, and 1 Club Sponsor (retains 3)
 - ii. Building extra-duty positions – PAYBAC Liaison, Student Information System Trainers, Building Web Page Developer
 - iii. Teaching staff – 6 classroom teachers, 4th grade String, 5th grade Strings, and 5th grade Band
 - iv. Development of grade level teacher trainers in the area of literacy
- Budget reductions in past years have eliminated the following programs and supports: Curriculum Task Force Committee (2006-07); 120 extra duty positions for content area initiators (2005-06); 1 FTE in Montessori preschool/kindergarten (2004-05); and extra duty positions for bldg Volunteer Coordinator, Kitchen Helper Coordinator, Spring Festival Music Program, and Montclair Swim Instruction Paraprofessionals (2003-04).

 - 1 FTE ELL teacher for growth
 - 6 FTE teachers for classroom growth, this provides the teachers for the expected growth in students

- iv. \$100,00 to implement a modified Elementary Strings/Band program, based on how other district around the country are creatively providing students these opportunities by involving local community organizations, artists, volunteers, to provide after school and summer programs, and parent pay programs
- The following requests were submitted to the Elementary Program Budget Team but were not granted at this level
 - i. 3 FTE teachers for traveling art teachers for grade 5, it was felt that this is not the time to implement new programs, the recommended implementation of art curriculum in 2010-11 will provide teachers the resources needed to provide an appropriate art education foundation
- The committee reviewed all of the programs included in the Elementary Program Budget to identify possible reductions. The building budgets for staff development, materials, and supplies do not adequately meet the building needs, so this area was not identified for reductions. - The addition of 6 FTE for K-5 teachers was requested by Human Resources based on anticipated growth for 2009-10.
 - The reduction of 12 FTE certified staff would be directed to classroom sections where a teacher could be reduced and remain within the district guidelines. The second area of reduction would be where a teacher could serve multi-grades. The team is looking to Human Resources expertise to recommend where those situations might occur.

The intent of the submitted budget is to implement the district curriculum and services that provide students the differentiated learning opportunities to successfully achieve our District Standards and Indicators and meet District and State Assessments, within the parameters of State Statute and Nebraska Department of Education Rules.

Program Area: Middle Schools

Briefly describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year.

Programs in Millard's middle schools are designed to meet the needs of this special group of students and to serve as a bridge between elementary and high school.

ACADEMICS: Academic and life skills, so important in elementary school, are given continued emphasis and further development in middle school to ensure students meet rigorous and relevant outcomes necessary for future success.

EXPLORATION: Exploratory experiences are a vital part of the middle school. These opportunities introduce new subjects and experiences to help students identify and develop their interests and talents.

ADVISEMENT: In the advisory program, small groups of students meet with one teacher daily for 5 to 30 minutes. In keeping with the middle school philosophy, the teacher serves as an advocate for the student with other students, staff and parents. This program is an extension of our guidance services addressing life skills, 40 Developmental Assets, and Personal Learning Plans while providing a strong student support system.

TEACHING TEAMS: Students are assigned to an academic team with two to five teachers for English, math, science, social studies and reading. This team of students and teachers provides a smaller unit within the school to address adolescent student learning needs and to give students a greater sense of security, and feeling of belonging. Team teachers share a common planning time for professional learning community discussions, planning of interdisciplinary activities, differentiating for individual team students, coordinating curriculum, and providing for individual student needs.

CURRICULUM:

- GRADE 6* Mathematics/challenge math/prealgebra, reading, world languages, language arts, science, social studies, physical education/band/orchestra, exploratory (6-week rotation): health, general music, art, family and consumer science, industrial technology, computer applications.
- GRADE 7* Mathematics/prealgebra/algebra, science, health, reading, world languages, English, social studies, physical education/music, band/orchestra, exploratory (6-week rotation): art, family and consumer science, industrial technology, computer applications, general music, health.
- GRADE 8* Prealgebra/algebra/geometry, science, reading, English, social studies, world languages, family life education, physical education/guided study hall, chorus, band/orchestra, career planning and choices of an array of 6 week exploratory electives such as: industrial technology, drawing, painting, pottery, print making, foods, sewing, designing spaces, managing money, and computer applications including web and graphic design and desktop publishing.

Support Personnel & Instructional Budgets:

- Provide counseling, career awareness and Personal Learning Plan information
- Provide administrative leadership and program/institutional management
- Support and maintain co-curricular and extracurricular programs
- Coordinate and maintain support personnel and facilities for student learning, staff and administration
- Provide staff development opportunities
- Maintain library/media services for students
- Provide technological support for instructional programs
- Maintain safe and secure learning environment
- Support district policies and state accreditation rules
- Pursue and support district strategic and site planning goals
- Support reteaching efforts, Special Education, English Language Learners (ELL) and 504 services for students
- Provide choice through Montessori and the IB Middle Years Programme (MYP)
- Maintain facility through repair and replacement of equipment
- Purchase needed instructional materials and supplies to facilitate teaching and learning
- Provide health services for students
- Provide High Ability Learners (HAL) services and experiences unique to the middle level experiences

- **Addition** of 3.0 FTE Teachers: Based on potential growth at the middle level
- **Addition** of .25 Teacher: In combination with elementary request for additional .25 to move current ELL Specialist position from .5 to 1.0 FTE to better meet needs of ELL students
- **Reduction** of 6.0 FTE Counselors: Support services to students and families would be impacted; other responsibilities would be reassigned
- **Reduction** of 8.0 FTE Teachers: Impact to be determined based on student enrollment; class sizes would increase at all buildings
- **Reduction** of Paraprofessional Hours: 5.5 hours per building per day; support services to students and staff would be impacted; other responsibilities would be reassigned
- **Elimination** of Department Heads: Responsibilities would be reassigned and shared by content area teachers
- **Elimination** of MIT Consultants/Leaders: Responsibilities would be reassigned and shared by administrators, counselors and/or teachers
- **Elimination** of School Newspaper: Opportunity no longer offered to students
- **Reduction** of Clubs/Activities: Reduced choices for student participation in extra-curricular activities
- **Reduction** to Non Personnel Building Budgets: Incremental decrease based on student enrollments

The intent of submitted reductions is to continue offering the full academic program and services to align with the intention of providing the district curriculum and learning opportunities to all students. Other reductions considered, but not included were:

- Further reduction or elimination of other athletics, activities and/or staff would jeopardize the Millard Public Schools Middle Level Philosophy and opportunities for middle level students
- Further reduction of teaching staff would significantly impact class size or eliminate curriculum offerings

- Further reduction of staff would reduce or eliminate services to students and parents
- Every attempt was made to impact the least amount of students when determining reductions

Program Description Form

Program Area: Business Services

Briefly describe the programs and/or services which are provided within this area of the school district's budget during the preceding budget year (FY10):

Business Services is responsible for a variety of services including but not limited to: accounts payable, payroll, purchasing, receiving, warehouse & distribution, inventories, deliveries, district-level construction management, special project management, hazardous materials management, grant accounting, financial software system operations and support, budget preparation, state financial reporting, cash management, facility use coordination.

PAYROLL

Paychecks and direct deposits for over 4,000 employees are processed on a monthly and biweekly basis. Salaried employees are paid monthly while hourly employees are paid biweekly. This amounts to three payrolls every month, with two months having four payrolls. This includes all the processing, reconciliation and reporting of insurance, taxes, deductions, etc.

ACCOUNTS PAYABLE, PURCHASING, RECEIVING, AND DELIVERING

Processing over 8,000 purchase orders and issuing over 12,000 checks annually. Prepare bid documents and manage furnishings purchases for new building projects and for major replacement projects. Manage district-provided copy services. Generate all necessary reports for Board of Education and budget managers.

DISTRIBUTION CENTER

Maintains and distributes over 550 inventory items, along with general freight orders delivered. Transports inter-district and bulk mail, and hot food carts from preparation kitchens to satellite kitchens. Transports equipment to support special events within and outside of district. Storage, auction and disposition of surplus goods. Coordinates receiving, bar coding, and distribution of goods to the buildings.

BUDGET PREPARATION

Initiates, oversees and implements the Program Budgeting process for the district. The district is required to budget for eight funds totaling in excess of \$300,000,000.

CONSTRUCTION & PROJECT MANAGEMENT

Serve as Owner's Rep for bond construction projects. Serve as in-house Project Management on building fund and self-funded special projects. Hire and manage architects and engineers, perform construction observations, coordination and contract administration. Prepare necessary reports for Board of Education regarding construction management. Maintain archive of construction documents in district Plan Room.

FINANCIAL SOFTWARE

Designated school district employees in every building use the accounting system for entering purchases orders and reviewing financial transactions. The business office provides training, software upgrades and technical support.

GENERAL DISTRICT WIDE EXPENDITURES

Equipment repair, dataTeam (activity fund) software upgrades/training, fees for bond paying agents, various consulting costs, etc.

The Contracted Business Services Budget is increasing by \$144,307 over the FY10 budget of \$3,300,000.00. This is an increase of 4.37%. The increases in copy services, insurance premiums and postage are standard rate and usage increases.

PROGRAM DESCRIPTION FORM

Program Area: Technology

Briefly describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year: The district-level technology program supports the wide area and local area networks, all hardware, software, curriculum-based technology, and the many end-users of technology—students and staff—within the district. The program supports building computer initiators and media specialists. There are 27.0 FTE associated with the program. This includes: 1.0 FTE Exec. Dir., 1.0 FTE Systems Analyst, 5.0 FTE Network Support Specialists, 10.0 FTE Technology Facilitators for desktop support, 3.0 FTE Technology Specialists for Desktop Support, 4.0 FTE Instructional Technology Facilitators (MEP), 1.0 FTE Datawarehouse Associate, 1.0 FTE Technology Helpdesk Specialist, and 1.0 FTE Secretary to Tech Division. [Note: Staff who work in technology, but in ESU#3 budget include: 5.0 FTE through ESU#3 dedicated to Infinite Campus, Pentamation, and staff development.]

- Network Support (Wide Area and Local Area) and Desktop Support: maintain 98+Novell , W2000/2003, Linux, and Apple OSX servers, data closet equipment including over 575 switches, more than 10,800 data drops, and wireless local area network in each building (34 sites, over 500 access points and switches).
- Manage server databases for all elementary, middle, and high schools (approximately 2750 staff, 22,000 students)
- Maintain Internet connectivity and filtering (CIPA compliance) for 11,000+ workstations/laptops
- Provide fiber connections for voice, video, and data communications for all district facilities.
- Coordinates district technology needs with ESU#3 services (Pentamation, and web administration)
- Supports Infinite Campus, the District's Student Database, and Parent Portal (web access)
- Supports Edulog (transportation), Safari Montage (video streaming) and Growth Path Analytics (data warehouse)
- Provides test environment for new technologies
- Establishes district technology standards for hardware and software
- Processes all purchase requisitions for district level hardware and software
- Maintains 11,000+ computers/laptops, 1,300+ printers, scanners, and other peripherals
- Supports more than 400 software titles
- Supports maintenance and repair issues for building technology through service contracts
- Provides help desk support for building technology problems
- Coordinates with and supports building technology initiators
- Supports client software for Subfinder, Pentamation, and other district approved productivity tools
- Maintains software licenses (Network, Desktop, Antivirus, Backup Programs and OS's) and technology inventories

Curriculum/Instruction & Staff Development Support—Technology Center (CSMI)

- Responsible for evaluating, recommending, and supporting K-12 instructional software
- Maintain communication with and deliver training to in-building facilitators in 34 schools
- Develop/deliver staff development to instructional and administrative staff
- Develop/implement ways of integrating technology into classroom activities and the curriculum
- Develop/support internet/intranet and network-based curriculum/instruction for students
- Support curriculum-based internet and databases for K-12 instruction (District and hosted)

Communications and Surveillance Systems Support

- Manage e-mail (internal and Internet) program for 2,700 staff members
- Maintain and manage telephone systems, cellular (300+) and fixed (1500+), including Nortel VoIP system throughout the district.
- Maintain and upgrade surveillance systems for building safety and security

3. Financial Reconciliation:

Continuation Budget:	\$ 3,761,301.65
Amount for Above Additions:	\$ 172,250.00
Amount for Above Reductions:	\$ <u>279,940.72</u>
Total:	\$ 3,653,610.93

(The "Total" must equal the budget available for this budget level.)

4. Attach whatever information seems relevant to support the committee's decisions related to this budget level. Include information related to other additions or reductions that were considered by the committee but were not in this budget level. [Note: If some of the supporting documentation relates to more than one of the proposed budget levels, attach the information to the first budget level and simply make reference to it in subsequent budget summaries.]

Assumptions

- Continuation budget assumes 4.8% increase in personnel salary and fringe benefits
- Continuation budget assumes 2.8% increase for non-personnel costs.
- In order to address added yearly costs of 4.8% personnel salary and fringe benefit increases and Board approved initiatives any anticipated non-personnel increases would have to be reduced as would extra-contract and out-sourced consultative work.

Additions:

- Licensing cost increases generally exceed CPI with average increases of 7-10% or are based on increased student population or increased number of staff. Any other additions based upon actual contract cost increases must be offset by a reduction from another area.
- Balance of unfunded Microsoft agreement (formerly paid from Bond funds).
- Stoneware portal services for all staff members and students was implemented in 2009-10. Ongoing maintenance actual cost for this system is \$22,250 per year.

Reductions:

- A. Reduce one certificated staff member, resulting in movement of that staff member back to a classroom or building teaching position.
- B. Reduce 2.5 professional technical staff members, resulting in realignment of duties to other staff members. At this time, no unfilled positions exist.
- C. Eliminate travel and training funds. These funds are generally used to pay for travel and expenses for training that is not offered in the Omaha area.
- D. Reduce number of devices covered under the District 3Com maintenance contract for networking. Some spare parts would be available in District, while those not available may cause disruption of service until a suitable replacement is obtained.
- E. Modify District Nortel phone coverage. Remove desk phone units from contract. Phone replacement would be paid for out of repair.

Other additions not included in this budget:

- A. Uninterruptable power supplies (UPS): Aging units require replacement, and additional equipment requires additional units. These items are currently funded with e-Rate reimbursement.
- B. Server replacement for aging servers: The current plan is to replace 4 servers per year on an ongoing basis. These are currently paid for with e-Rate reimbursement.
- C. Replacement plan/cycle for computer hardware: Currently, all student and staff computers were paid from bond monies. The current bond fund will be exhausted in Summer, 2010 to complete as many of the remaining seven elementary schools as possible. After the bond fund is exhausted, general fund budget must be used to pay for computer equipment, thus the general fund must be adjusted to accommodate this over several years. The alternative to this is another bond issue for technology.

- D. Eliminate travel and training funds. These funds are generally used to pay for travel and expenses for training that is not offered in the Omaha area.
- E. Reductions in contracted services/temporary/summer/other professional technical pay noted above will eliminate network security/health checks, engineering consulting, summer work, and external assistance for problems that cannot be solved by existing staff. No summer work will prevent the District from adopting new software (eg: Windows 7), as well as re-imaging building and staff computers. (The "Total" must equal the budget available for this budget level.)

4. Attach whatever information seems relevant to support the committee's decisions related to this budget level. Include information related to other additions or reductions that were considered by the committee but were not in this budget level. [Note: If some of the supporting documentation relates to more than one of the proposed budget levels, attach the information to the first budget level and simply make reference to it in subsequent budget summaries.]

Assumptions

- Continuation budget assumes 4.8% increase in personnel salary and fringe benefits
- Continuation budget assumes 2.8% increase for non-personnel costs.
- In order to address added yearly costs of 4.8% personnel salary and fringe benefit increases and Board approved initiatives any anticipated non-personnel increases would have to be reduced as would extra-contract and out-sourced consultative work.

Additions:

- Licensing cost increases generally exceed CPI with average increases of 7-10% or are based on increased student population or increased number of staff. Any other additions based upon actual contract cost increases must be offset by a reduction from another area.
- Balance of unfunded Microsoft agreement (formerly paid from Bond funds).
- Stoneware portal services for all staff members and students was implemented in 2009-10. Ongoing maintenance actual cost for this system is \$22,250 per year.

Reductions:

- A. High schools currently have two full time technology staff members, one technology facilitator and one technology specialist. Reduction of extra duty for teachers would cause minimal disruption.
- B. Reduce one certificated staff member, resulting in movement of that staff member back to a classroom or building teaching position.
- C. Reduce one professional technical staff member, resulting in realignment of duties to other staff members. At this time, no unfilled positions exist.
- D. Discontinue Mac virus protection. Windows virus and spam protection would be continued. Generally, Mac computers are less vulnerable.
- E. Eliminate travel and training funds. These funds are generally used to pay for travel and expenses for training that is not offered in the Omaha area.
- F. Reductions in contracted services/temporary/summer/other professional technical pay noted above will eliminate network security/health checks, engineering consulting, summer work, and external assistance for problems that cannot be solved by existing staff. No summer work will prevent the District from adopting new software (eg: Windows 7), as well as re-imaging building and staff computers. The above noted amount is a 45.52% reduction in contracted services.
- G. Reduce number of devices covered under the District 3Com maintenance contract for networking. Some spare parts would be available in District, while those not available may cause disruption of service until a suitable replacement is obtained.
- H. Modify District Nortel phone coverage. Remove desk phone units from contract. Phone replacement would be paid for out of repair. .

Other additions not included in this budget:

- A. Uninterruptable power supplies (UPS): Aging units require replacement, and additional equipment requires additional units. These items are currently funded with e-Rate reimbursement.
- B. Server replacement for aging servers: The current plan is to replace 4 servers per year on an ongoing basis. These are currently paid for with e-Rate reimbursement.
- C. Replacement plan/cycle for computer hardware: Currently, all student and staff computers were paid from bond monies. The current bond fund will be exhausted in Summer, 2010 to complete as many of the remaining seven elementary schools as possible. After the bond fund is exhausted, general fund budget must be used to pay for computer equipment, thus the general fund must be adjusted to accommodate this over several years. The alternative to this is another bond issue for technology.

Millard Public Schools must insure that all students with verified disabilities have a free appropriate public education available to them from their date of special education verification (available beginning at birth) through the conclusion of the school year during which the student turns age twenty-one, including students who attend nonpublic schools and students who have been suspended or expelled from school. A free appropriate public education includes special education and related services designed to meet each student's unique educational needs as identified in their Individual Family Service Plan (IFSP)/Individual Education Program (IEP). On October 1, 2009, 3,250 students with disabilities (Pre-K through 21) were eligible to receive special education and related services; this number is 14.4 % of the total Pre-K through grade 12 MPS student enrollment; the K-12 disability child count of 2,943 is 13.4 % of the District's K-12 student enrollment.

- Diagnostic and Evaluation Services
 - Pre-referral intervention services, including Section 504 eligibility
 - Comprehensive evaluation in all areas of suspected disability
 - Verification categories include: Autism, Behavior Disorder, Deaf-Blindness, Developmental Delay, Hearing Impairment, Mental Handicap, Multiple Impairments, Orthopedic Impairment, Other Health Impairment, Specific Learning Disability, Speech/Language Impairment, Traumatic Brain Injury, and/or Visual Impairment
 - Independent Educational Evaluations
- Early Childhood Special Education Programs (Students birth to age 5)
 - Services provided in child's natural environment, birth to age 3
 - Continuous year services for students, birth to age 3
 - Special education preschool services, beginning at age 3 and continuing to age 5, including special education, related services and transportation
 - Extended year special education as required by individual student IEP's, beginning at age 3
 - Year round assessment for new students
- School Age Special Education Programs (Age 5 to graduation or age 21)
 - Special education services to eligible students attending Millard Public Schools: including inclusion and pull-out resource programs, cluster-site programs, speech-language therapy, related services, and transportation
 - Special education services to students attending nonpublic schools, including special education, related services and transportation
 - Homebound services for students unable to attend school due to their health condition
 - Services to suspended/expelled students beyond those provided to non-special education peers
 - Extended year special education as required by individual student IEP's
- Related Services, as appropriate, in the following areas:
 - Speech/Language Therapy
 - Transportation
 - Nursing/Medical Services
 - Audiological Devices
 - Physical Therapy
 - Occupational Therapy
 - Sign Language Interpreters
 - Psychological Services
 - Audiology Services

 - Special Education Preschool program—centerbased, community-based, and itinerant
 - General Education Class without Special Education—available at all MPS schools
 - Consultative Special Education Services—available at all MPS schools
 - General Education Class with Special Education Support—available at all MPS schools
 - Cluster-site programs—located at identified elementary and middle schools
 - Alternative School Programs at Horizon High School and Middle School Alternative Program
 - Separate School Facility
 - Residential Facility
 - Hospital
 - Homebound
- Young Adult Program (Students 18-21 years old)
 - Transition to adult living
 - Vocational services, including job coaching
 - Transportation
 - Coordinate services with State Agencies
- Pre-Vocational and Vocational Training
- Contracted student programs/services, as appropriate, for students birth to age 21 in the following areas:
 - Behavior Disorders
 - Mental Handicaps
 - Nursing/Medical Services
 - Autism
 - Vocational Placements
 - Hearing Impaired
 - Orientation and Mobility Services
 - Students who are out of district residents for other than educational reasons

PROGRAM DESCRIPTION FORM

Program Area: __Operations and Maintenance

Briefly describe the programs and/or services, which were provided within this area of the school district's budget during the preceding budget year:

- * Custodial services for cleaning classrooms, restrooms, offices, etc.
- * Mowing, fertilizing, and irrigating the school district grounds
- * Preventative maintenance on vehicles, heating ventilations and air conditioning units (HVAC), etc.
- * Repair work on sidewalks, drives, etc.
- * Custodial work associated with facilities use (e.g. setting up the room for the event, addressing special needs as they arise, cleaning up after use, closing the facility, snow removal, etc.)
- * Maintaining security systems and responding to security alarms
- * Maintaining fire alarm systems
- * Moving furniture and equipment out of construction areas before construction/renovation/major maintenance occurs, then moving it back and cleaning the facilities after the move
- * Painting services
- * Carpenter services
- * Special projects
- * Maintaining keys and lock systems throughout the district
- * Roof repair
- * Snow removal, salting and sanding
- * Parking lot/Playground sweeping
- * HVAC maintenance and repairs
- * Electrical maintenance and additions
- * Plumbing maintenance and additions

EXECUTIVE SUMMARY

Please provide below a brief description of what is included in (or excluded from) each of the proposed budget levels. [Note: Use "bullet lists" if such will assist with clarity and conciseness. This form should focus on statements of fact. The Budget Summary Form (Appendix D) provides a forum for sharing the committee's rationale, comments, and supporting documents for each proposed budget level.]

NOTE: None of the below budgets include H1N1 sub custodian disinfectors, which were used during the 2009/2010 school year.

A. 101.0% Budget

- Eliminate:
 - 3 HS Dept Heads and associated FTE's (\$170,009)
 - 3 HS Assist. Dept Heads – stipends only (\$10,398)
 - 6 MS Dept Heads – stipend only (\$10,278)
 - 1 SSC Auto Mechanic (\$58,460)
 - 3 10-Month Custodians (\$80,436)
- Reduce:
 - Vehicle repair and replacement (\$55,501)
 - Sub custodians, custodial overtime (1/2 the coverage of current coverage standards) (\$147,000)
 - Summer Temp Maintenance Help, maintenance overtime (\$21,550)
 - Grounds Supplies, equipment, etc. (\$29,500)
 - Painting Supplies (\$10,000)
- Add/Increase:
 - 1 Full Time Night Custodian to Ron Witt SSC (\$42,750)
 - 1 FT Secretary to SSC (for training, safety, M&O and Food) (\$42,000)
 - 1 FT Project Custodian (equipment repairs, equipment moves, special projects) (\$43,724)
 - Contract Services Increase (\$125,083)
 - CPI Increase for Contract Services (\$31,879)
 - Carpentry Increase (3,000)

B. 102.0% Budget

- Eliminate:
 - 3 HS Dept Heads and associated FTE's (\$170,009)
 - 3 HS Assist. Dept Heads – stipends only (\$10,398)

- 6 MS Dept Heads – stipend only (\$10,278)
 - 1 SSC Auto Mechanic (\$58,460)
 - 3 10-Month Custodians (\$80,436)
 - Reduce:
 - Vehicle repair and replacement (\$23,959)
 - Sub custodians, and custodial overtime (1/2 the coverage of current coverage standards) (\$104,000)
 - Summer Temp Maintenance Help, and maintenance/grounds overtime (\$11,550)
 - Grounds Supplies, equipment, etc. (\$28,500)
 - Painting Supplies (\$10,000)

PROGRAM DESCRIPTION FORM

Program Area: Projects

Briefly describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year:

In the past, the District has budget for its projects in the Special Building Fund. However, due to some changes in the state aid formula, it is advantageous for the District to budget more of its project in the General Fund in order to keep the General Fund tax levy at \$1.04. This increase in the General Fund tax levy would be matched by a corresponding decrease in the Special Building Fund tax levy.

The exact amount that will be budget for "Projects" in the general fund will be determined by the amount of funds that are available under the \$1.04 levy. This will not be known until after the property values in the District are certified on August 20th.

"Projects" includes such things as the replacement of roofs, sidewalks, parking lots, HVAC units, and other such capital replacement items.

101.0% Budget

Reductions at this level include off-duty security patrols, annual dues, "supplies", security uniforms, travel and we would reduce some SRO contract time.

102.0% Budget

Reductions at this level include eliminating off-duty security, all supplies, travel and annual dues. Security uniforms would be reduced.

103.0% Budget

Again, additional security patrols would be eliminated along with annual dues as well as the funds allocated for travel. Supplies would be reduced by over 75%.

104.0% Budget

SRO K-9 Salary Increase for hours and cost of K-9 care.

106.0% Budget

SRO K-9 Salary Increase. The SRO would be available to work 40 hours / week. Additional security would be to cover the cost of having a police officer at all Millard Board meetings, as well as additional patrols at different times of the year when a police presence is necessary.

121.6%

Increase includes two Associate SROs from Douglas County to be located at Beadle Middle School and Russell Middle School. Kiewit Middle School would also receive an Associate SRO from the OPD.

PROGRAM DESCRIPTION FORM

Program Area: Employee Contracted Obligations

Briefly describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year:

- *Extra time and overtime compensation for non-exempt (hourly) clerical, professional/technical and paraprofessional employees. Additional hours allow us to meet critical and emergency situations without flexing employees' schedules. Hours allocated: Elementary Secretaries - 64 hours, Other Secretaries - 40 hours, Educational Paraprofessionals - 1 day each.*
- *Responsibility Pay: – compensation for Teacher Responsibility Pay which provides incentives to provide extra services generally not covered under extra duty payments.*
- *Substitutes: Substitutes are needed to work in place of employees who are absent for any reason except professional leave. Professional leave substitutes are budgeted in other programs.*
- *Pay for Unused Sick Leave: An incentive for employees to accumulate the maximum paid sick leave.*
- *Employee Benefit Fees: Employee Benefit consulting and compliance review.*
- *Local Mileage: Reimbursement for employees who must travel while performing their duties.*
- *Dues/Fees & Travel Allocation: An allocation to each administrator for professional development.*
- *Extra-duty Compensation: New Staff Induction (Peer Coaching/Productive Approaches).*
- *Resignation Notification Incentive: Certificated employees who notify the district by December 15 of their decision to resign at the end of the school year are paid a stipend of \$500. Early notification allows the district to pursue the highest qualify staff to replace them.*
- *Voluntary Separation: To encourage eligible employees who are considering early separation or early retirement to accelerate their plans. Program objectives include:*
 - To offer financial incentives, which will assist long-term Millard Public School employees considering separation or retirement.
 - To reduce District costs by replacing maximum salary employees with lesser salary employees.
 - To provide a balance of employee experience.
 - To reduce or eliminate the possibility of certificated employee layoffs.
 - To provide the District the opportunity to select and retain the highest quality staff by establishing February 15 as the application deadline.

PROGRAM DESCRIPTION FORM

Program Area: Contingency .

Briefly describe the programs and/or services which were provided within this area of the school district's budget during the preceding budget year:

There are numerous expenses that crop up during the year that were not reasonably foreseeable. As a result, we have created a contingency program area where we budget approximately 1% of the budget to meet these unforeseen expenses.

Examples of unforeseen expenses in past years have included: a substantial unexpected increase in student enrollment (necessitating moving portable classrooms and hiring additional teachers), an abrupt 150% increase in natural gas costs, the employment of security resource officers, the major repair of an air conditioning systems, the emergency replacement of some roofs, the employment of consultants to assist with complex issues, the payment of insurance deductibles on property losses and theft, the expenses related to non-routine legal matters, etc.

At the end of the fiscal year, if there are funds remaining in the contingency, the district transfers these funds to the depreciation fund to be used to replace depreciable items (e.g., band uniforms, kilns, equipment, etc.).

PROGRAM DESCRIPTION FORM

Program Area: Strategic Planning

Budget Team: Keith Lutz, Ken Fossen, Mark Feldhausen , Jim Sutfin, Craig Whaley, Amy Friedman, and Vicki Hoskovec

Program Description

The strategic planning budget identifies new program expenditures. Once the new program is established, continuing funds will be included in appropriate budget areas.

The current strategic plan has identified 27 action plans.

The current plan was approved by the board in March of 2009.

The strategic plan is updated every other year and usually spans a five year time frame.

This is the second budget year for this plan cycle.

- As of the end of April 2010 (67% of the way through the fiscal year), the District had spent 65% of its budget for utilities. With the heaviest use of electricity and water coming during the months of May-August, we believe the expenditures for utilities for the fiscal year will be very close to the amount budgeted.
- Based on information provided by OPPD and MUD, a 6% increase was budgeted for electricity, 0% increase for gas and 5% increase for water and sewer.
